

Fire Sprinkler Inspector

Job Description

Archer Construction Inc. is a Kent, WA fire sprinkler contractor, performing fire sprinkler design, installation, maintenance and repair. We are seeking qualified, experienced applicants for a Fire Sprinkler Inspector position.

Job Type: Full-time

Salary: Hourly / DOE

Responsibilities include:

- Inspect, field test, maintain & repair the following fire protection systems: Wet and Dry systems, Pre-Action and Deluge, Fire Pumps, Standpipe Systems, Backflow devices, and Portable Fire Extinguishers.
- Knowledgeable and able to identify code and other non-conformance issues. Effectively communicate recommendations on repairs and/or preventive maintenance.
- Working knowledge of NFPA 25 codes for inspection and testing of water-based fire protection sprinkler systems. Stay current with code requirements and industry changes.
- Work closely with the Inspection Coordinator and Service Manager to ensure that the customer receives the scheduled work as promised.

Minimum Qualifications:

- NICET Certification: Inspection and Testing of Water Based Systems, Level II
- WA State Patrol Certificate of Competency Level ITT
- Knowledgeable of NFPA 25 Standard for the Inspection, Testing, & Maintenance of Water-Based Fire Protection Systems
- Strong communication, customer service, and writing skills.
- Valid Washington driver's license and clean driving record.
- Ability to follow detailed procedures and ensure accuracy in documentation and routine details.

Preferred Qualifications:

- WA State Patrol Certificate of Competency Level ITT
- Washington Backflow Assembly Tester (BAT) certification.
- Knowledgeable of NFPA 10 Standard for Portable Fire Extinguishers
- Seattle AS-ITT(S) Inspection, testing, & maintenance of water-based fire protection systems, State level ITT (inspection & technician Certification)
- Seattle FEX-1 All activities relating to portable fire extinguishers.
- Seattle STP-ITM Inspection, testing, & maintenance of standpipe systems
